

CELLULAR
SOLUTIONS™

Our Cellular Solutions product line
is built "for such a time as this."

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 30

	Amount Per Serving	%Daily Value		Amount Per Serving	%Daily Value
Total Calories	20		Omega-9 Fatty Acids	515 mg	+
Total Fat	2 g	3%*	(OA) Oleic Acid	515 mg	+
Saturated Fat	<0.5 g	<1%*	Membrane Integrity Blend	2.2 g	+
Polysaturated Fat	1.6 g	+	Sunflower Seed Oil, AhiFlower® (Ricinus communis)		
Monounsaturated Fat	<0.5 g	+	Sunflower Seed Oil, Sea Buckthorn Seed Oil,		
Omega-3 Fatty Acids	226 mg	+	Hemp Seed Oil, Organic Storage Seed Oil,		
(ALA) Alpha Linolenic Acid	172 mg	+	Bovine Heart, Organic Cordyceps Whole		
(SDA) Stearidonic Acid	54 mg	+	Fruitbody Extract		
Omega-6 Fatty Acids	918 mg	+			
(LA) Linoleic Acid	885 mg	+			
(GLA) Gamma Linoleic Acid	33 mg	+			

AhiFlower® is a licensed trademark of
Technology Corp. LLC.

Other Ingredients: Gelatin, beeswax, lecithin (sunflower), glycerin,
natural color, purified water.

SUGGESTED USE

- ✓ Adults take 2 soft gels per day, together or in divided doses. May be taken with or without food or as directed by your healthcare professional.

CONTRAINDICATIONS

- ✗ If you are taking blood thinners, consult your doctor. For any medication-related ingredient contraindications, always consult your doctor.

The statements regarding this supplement have not been evaluated by the Food and Drug Administration (FDA). This product is not intended to diagnose, treat, cure, or prevent any disease. Consult with a healthcare professional before starting any dietary supplement regimen. Keep out of reach of children. Do not exceed the recommended dosage. If you are pregnant, nursing, taking medication, or have a medical condition, consult your physician before using this product.

MEMBRANE R2

R2 (regenerate the cell membrane), a vital component of Dr. Pompa's 5R strategy for cellular repair and detoxification, focuses on the regeneration of cell membranes. The health and integrity of the cell membrane are fundamental, as life and death begin on the cell.

Our product is meticulously crafted with specific fats in precise ratios to target both the outer and inner cell membranes. This is crucial for supporting not only detoxification but all essential cellular functions. The cell membrane plays a pivotal role by facilitating nutrient entry into the cell and aiding the removal of toxins. Additionally, it profoundly influences hormone function.

What sets this formula apart is its unique emphasis on unadulterated omega-6 fatty acids, which are key to regenerating cell membranes. While omega-3 has received much attention, it's essential to recognize the significance of omega-6, often referred to as the "king of the membrane."

The issue with adulterated omega-6 lies in its detrimental effects, primarily due to the crucial role that unadulterated omega-6 plays in maintaining membrane health. Many Americans consume excessive adulterated omega-6, and the solution isn't simply increasing omega-3 intake. Instead, our product encourages the replenishment of unadulterated omega-6, a vital element in promoting healthy cell membranes.

WHAT MAKES THIS PRODUCT UNIQUE?

- Extracted without the use of chemicals and without denaturing the fragile fats
- Cold pressed (superior to expeller pressed) to protect the integrity of the oil
- 4:1 ratio (Omega 6: Omega 3), which is the ratio that studies show targets the cell membrane
- Unique glandular ingredients. Specifically, the heart glandular provides stable cardiolipin, which is critical to mitochondrial function and cellular energy

KEY INFORMATION ABOUT UNIQUE INGREDIENTS

- Ahi flower is a former weed that gets the body to create its own DHA. Unlike fish oil, Ahi flower remains stable even at the high heat in the human body. It is also a bioavailable form of GLA for women's hormones; it is more potent and diverse than flax or chia and at a lower dose. It is helpful for the cell membrane, heart, brain, joints, ligaments, and tendons.
- Bovine heart in a naturally occurring form, which is biocompatible, is a better, natural source of CoenzymeQ and cardiolipin. Cardiolipin is the key omega-6 fat in the mitochondrial membrane. By delivering Cardiolipin in this natural source, it prevents oxidation and therefore brings life to the mitochondria. It is needed for energy production and the ability to burn fat effectively. To be most effective, it needs to be in the whole glandular form. Glands contain the code to support and rejuvenate the system they come from.
- Organic sunflower seed oil which is stable and a key source of quality omega 6 which is critical for membrane regeneration.
- Cordyceps (also known as Caterpillar fungus) which can eat microorganisms on the earth and inside our bodies. It has been proven to target inflammation pathways at the cellular level. It assists in fat and protein metabolism.
- Omegas from plant, animal, and fungi kingdoms.
- "Natural color" includes apple juice, cacao, and acacia (carrier, less than 1 mg per softgel)
